A live performance of the band Butter notes on a stage. The stage is bathed in red and blue lights. On the left, a guitarist with curly hair plays an electric guitar. In the center, a drummer with long hair plays the drums. On the right, another guitarist with curly hair plays an electric guitar. The background features a red curtain and some stage equipment. The overall atmosphere is energetic and vibrant.

We are Butter Notes – alternative rock with rough edges, unexpected turns and a whole lot of „buttery goodness“. Our songs combine fat sounds, odd time signatures and syncopations with natural sounding ease.

Equipped with a wide range of musical influences and driven by the thrill of playing together we pour all of our passion into the creative process of making music.

Wir sind Butter Notes – Alternative Rock mit Ecken und Kanten, unerwarteten Wendungen und ganz viel „buttrigem Charme“. Unsere Songs vereinen fette Sounds, ungerade Taktarten und Synkopen mit natürlicher Leichtigkeit.

Mit vielfältigen musikalischen Einflüssen und der Begeisterung fürs gemeinsame Musizieren stecken wir all unsere Leidenschaft in den kreativen Prozess des Musikmachens.

This is our first album „LAYER“ containing our debut songs and some new ones too. We had two great weeks spending in the studio of parkdeck recordings, where we were able to put the finishing touches on the songs.
